Make Corrections

You may use FAFSA Corrections on the Web to complete and submit corrections to your Free Application for Federal Student Aid (FAFSA). You may complete and transmit this online form electronically.

If you are using FAFSA Corrections on the Web you should have received a Student Aid Report (SAR) in the mail. Please pay particular attention that the SAR you are refering to has the same transaction number you enter to correct via FAFSA Corrections on the Web in the upcoming screens. (If you are coming back to open incomplete corrections that you have saved previously then go to Open Saved FAFSA.)

For all new correction transactions, you need to have a PIN from the Department of Education. If you do not have a PIN, or need to request your PIN again, go to the PIN Site.

If you know your PIN, select the school year you wish to make corrections to and **Next**.

FAFSA Corrections on the Web

Corrections on the Web will allow you to:

1) make any corrections or verify any fields required by the Department of Education based on the results of your SAR, and

2) Make any corrections you find in reviewing your SAR.

How to use Corrections On the Web

Corrections on the Web gives you the opportunity make any corrections and/or verify any fields required in your SAR and also allows you to review/correct your answers within each step of the FAFSA.

You will be asked to review the answers to the questions within each step of the FAFSA. To change or verify an answer, select the check box to the right of the question, and once you have finished reviewing all answers within that Step, you will be given the opportunity to correct/verify the questions you selected.

FAFSA Corrections on the Web are divided into 9 steps. If you know the step that the question(s) that you would like to correct are in, you may skip to steps 1 through 7 to make changes. The steps are labeled as follows:

Step 1: Provide Information About You (Questions 1-35)
Step 2: Provide Your Financial Information (Questions 36-51)
Step 3: Indicate Your Student Status (Questions 52-58)
Step 4: Provide Parents' Information (Questions 59-83)
Step 5: Provide Your Household Information (Questions 84-85)
Step 6: Indicate Which Schools Should Receive Your Information (Questions 86-97)
Step 7: Provide Preparer Information (Questions 100-101)
Step 8: Provide Signatures
Step 9: Submit Your Corrections on the Web

When you begin using FAFSA Corrections on the Web, you'll notice that many of your answers will already be on the form. This is because information you reported on your original 2001-2002 FAFSA is being displayed. You only need to change an answer if the information on the field needs to be corrected.

When you are finished making all your corrections, you can submit these to the Department of Education by selecting the "Submit All Corrections" button at the bottom of each of the Correction review pages.

FAFSA Corrections on the Web allows you to make corrections to any field on your FAFSA, **except Social Security Number and Date of Birth**.

How long will it take to complete?
Your FAFSA should take less than one hour to complete depending on your answers and whether or not you have the necessary information available. You don't have to complete your FAFSA all at one time, you can save your application for later whenever you want.

What documents do you need to complete a FAFSA?
If you have not done so already, please review Documents Needed. In addition, you are reminded about any required documents at the beginning of each step of the FAFSA.

Step 8: Signatures - Provide Parent Signature

Because you have corrected parental information on your FAFSA, you will need to have one parent, whose information is provided in Step 4, provide a signature. There are three ways that your parent's signature can be provided:

- **Electronically Sign Later**- Have your parent use his or her U.S. Department of Education PIN to electronically sign your FAFSA later. Your parent will be able to electronically sign your FAFSA later by selecting "Electronically Sign My FAFSA" under the Completing a FAFSA area of the web site.

- **Print Signature Page** - You must have printer access from your current computer to print a signature page. Have your parent sign and mail it to us immediately after submitting your FAFSA, as we will not process your FAFSA until we receive the signature page. **Printing will not submit your application!**

- **Wait for SAR**- We will send you a Student Aid Report (SAR) in the mail that your parent must sign and return to us. We will not be able to complete processing your FAFSA until after we receive your signed SAR in the mail.

-If student provided PIN signature, but parent will sign with PIN later on:
You (the student) signed your 2001 - 2002 FAFSA by using your PIN. However we will hold your 2001 - 2002 FAFSA until we receive one of your parent's electronic signatures. Since you indicated that one of your parents already has a PIN and plan to electronically sign your application using their PIN, select Electronically Sign My Application, or return to the FAFSA on the Web home page and select Entering a FAFSA, then Electronically Sign My FAFSA.

-If both student and parent will print signatures:
Once we receive all necessary signatures from you, we will process your 2001 - 2002 FAFSA and mail you a Student Aid Report (SAR) containing your processed information. If we do not receive your signature page within 14 days, we will mail you a SAR, which you will be directed to sign and return to the address listed on the SAR.

Using Screen Reader Software with FAFSA Corrections on the Web

Skip instructions for screen reader version >>

This site has been designed to allow blind and low-vision users to make corrections to their FAFSAs independently, using a web browser and screen reader software. Screen design is consistent throughout the correction form. The text of each question is on the left and the control to respond to the question is on the right. The control is located on the same line as the question (if the question has multiple lines, then the control is on the same line as the last line of the question).

FAFSA Corrections on the Web uses three basic types of controls for responses, text boxes, drop-down boxes, and radio buttons. Text boxes are used for questions that don't have pre-defined responses (such as name, address, income earned, etc). While these fields allow for free-form entry, only certain values are valid in these fields. For example, only numbers are acceptable in the zip code field. If an invalid value is entered in a text box, you will be returned to the same page, with an error message displayed on the top, and an arrow pointing to the question containing the invalid entry. The focus will be set to the question as well.

To help you easily navigate through the FAFSA Corrections on the Website, a set of command buttons and hyperlinks are provided at the bottom of each screen page. They include the command buttons Previous, Next, Exit, Save, Review FAFSA Summary and Help. You may select this link for more information on how to use them effectively.

When you are ready to go to the next or previous screen page, please always use the Next or Previous button. The Next or Previous button will guide you to the next or previous page of the FAFSA.

At the top of each page, you will find four hyperlinks to "FAFSA Home", "Customer Service", "General Help" and "FAQs". If you select one of these links while you are in Corrections on the Web, the application will prompt you to save before leaving. If you chose not to save, any corrections you have made up to that point will not be saved and you will need to start over when you choose to come back to make corrections.

Help topics are accessed by selecting the "Help on this Page" button or by selecting hypertext links that open pop-up windows. When you have finished reading the help

topic, close the pop-up window (Alt-F4), and focus will return to your main browser window.

#	Business Rules
1	2001-2002 School Year (July 1st, 2001 - June 30th, 2002)
2	Field Correction pages are documented in FAFSA_WEB_Corrections.doc
3	Questions 8, 9 are not editable and thus applicant may not select them.
4	Final check is performed before the display of submit page. Field validations, end of entry edit (EOE), default value setup for EFC calculation, and EFC calculations are included in the final check. For rules about EOE and EFC, please check NCS documentation number 12-012 and 12-910.
5	If application fails final check, the first page that contains error field will be displayed with a new button "Resubmit." Clicking **RESUBMIT** button takes the applicant back to the same submit process. Clicking on other buttons or links will perform the same operations as the applicant first goes through the Fillout process.
6	If the total number of transactions on file at CPS for the student is between 30 and 35, it's considered close to the maximum amount of transactions. If it is more than 35, it's considered to exceed the maximum amount.
7	If applicant enters to correct FAFSA from Request Duplicate SAR process, it will skip the year selection page, PIN authentication page, and the transaction number page. The transaction number will be passed from the Duplicate SAR process via variable [szHCTRANSNUM].
